RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (10-0) recommend Approval, pending Plan Amendment.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the North Sector Plan and is designated as Suburban Tier. The requested base zoning of “C-3” is not permitted under current land use designation. The applicant has requested an associated Plan Amendment to Regional Center. Staff and Planning Commission recommended approval of the Plan Amendment.

2. Adverse Impacts on Neighboring Lands:

Staff has found no evidence of likely adverse impacts on surrounding properties in relation to this zoning request.

3. Suitability as Presently Zoned:

The existing “QD S” zoning district is not appropriate for the subject property as the only land use that permits the “QD” zoning is Specialized Center which could be considered too intense with its proximity to a church and school. The requested “C-3” is permitted is under the requested Regional Center land use and allows for a Construction Contractor Facility. The requested zoning will allow the applicant to continue operation of the existing contractor facility.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The request does not appear to conflict with any public policy objective. The zoning request fulfills the goals and strategies of the North Sector Plan, by encouraging development that is visually and functionally compatible with its surrounding neighborhoods by maintaining a massing and density of development that is compatible with adjacent developed neighborhoods.

6. Size of Tract:

The subject property is 15.081 acres in size, which accommodates the proposed development for a variety store.

7. Other Factors:

The purpose of the Specific Use Authorization is to provide for certain uses which, because of their unique characteristics or potential impacts on adjacent land uses, are not generally permitted in certain zoning districts as a matter of right, but with may, under the right set of circumstances and conditions be acceptable in certain specific locations.
