Property Details

Property History: According to available records the subject property was annexed in 1972 and was originally zoned from Temporary "A" Single-Family Residence district to "A" Single Family Residence District. Upon adoption of the 2001 Unified Development Code, the previous base zoning districts converted to "R-5 AHOD" Residential Single- Family Airport Hazard Overlay District. The subject property was developed as part of the Oak Hill Country Club but as open space. It is not platted in its current configuration.

Topography: The property does not include any abnormal physical features such as slope or inclusion in a floodplain.

Adjacent Base Zoning and Land Uses

ALTERNATIVES:

Denial of the requested zoning change would result in the subject property retaining the present zoning district designation.

FISCAL IMPACT:

None.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (8-0) recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the North Sector Plan and is currently designated as Regional Center in the land use component of the plan. The requested “MF-33” base zoning district is consistent with the adopted land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff has not found evidence of likely adverse impacts on the neighboring lands in relation to this zoning change request.

3. Suitability as Presently Zoned:

The existing “R-5” base zoning district is not appropriate for the subject property. It does not implement density the North Sector Plan encourages in the Regional Center future land use designation.

4. Health, Safety and Welfare:

Staff has not found any likely effects on the public health, safety, or welfare

5. Public Policy:

The request does not appear to conflict with any public policy objective. The North Sector Plan Regional Center future land use designation encourages high density dwellings.

6. Size of Tract:

The 13.60 acre site is sufficient size to accommodate the proposed development.

7. Other Factors:

None.
