**ISSUE:**

None.

**ALTERNATIVES:**

A denial of the request will result in the subject property retaining the current zoning classification, restricting future land uses to those permissible in the “RM-4 H AHOD” zoning district.

**FISCAL IMPACT:**

None.

**RECOMMENDATION:** Staff recommends Approval, pending Plan Amendment.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The subject property is located within the Dignowity Hill Neighborhood Plan and is designated as “Low Density Residential” in the future land use plan. The proposed request is not consistent with the “Low Density Residential” land use classification. The applicant submitted a plan amendment to change the land use classification to “Low Density Mixed Use.” Staff recommended approval. Planning Commission recommended denial.

**2. Adverse Impacts on Neighboring Lands:**

Staff has found no evidence of likely adverse impacts to neighboring lands in relation to this zoning change request.

**3. Suitability as Presently Zoned:**

The current zoning designation is suitable. The proposed zoning request is also suitable and will provide infill development to a vacant lot with additional housing stock. The surrounding area has seen increased infill development in the last 12 months.

**4. Health, Safety and Welfare:**

Staff has found that the proposed zoning request will not negatively impact the health, safety, and welfare of the neighborhood.

**5. Public Policy:**

The subject property is located in an area that has seen extensive development for commercial and higher density residential uses. The property's location is adjacent to an existing Low Density Mixed Use node and its close proximity to a Low Density Mixed Use residential and commercial uses along North Mesquite Street and to the west of the property, makes the request appropriate for the Low Density Mixed Use classification. In addition, the design of the request will allow the proposed single-family residences to be located within two structures on a lot of over 8,000 square feet which will be in conformance to the building scale and area of the surrounding neighborhood residences.

**6. Size of Tract:**

The subject property totals 0.185 acres in size, which should reasonably accommodate the uses requested.

**7. Other Factors:**

None.
