**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Approval

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The property is located within the Northwest Community Plan and is designated as Business/Office Park. The requested zoning is consistent with the current land use designation.

**2. Adverse Impacts on Neighboring Lands:**

Staff has found no evidence of likely adverse impacts on surrounding properties in relation to this zoning request as the request is consistent with the surrounding manufacturing and industrial uses.

**3. Suitability as Presently Zoned:**

The existing “NP-10” zoning district is not appropriate for the subject property. The requested “L” zoning with conditional use will allow for the continued operation of a rock crushing facility. The subject property has operated as a rock crushing facility since the 1990s. The purpose of the request is to come into full compliance with City code, as the use for rock crushing is not permitted in “NP-10” zoning.

**4. Health, Safety and Welfare:**

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

**5. Public Policy:**

The request does not appear to conflict with any public policy objective. The requested land use adheres to the goals and objectives of the Northwest Community Plan.

**6. Size of Tract:**

The subject property is 39.3825 acres in size, which accommodates the existing rock crushing facility.

**7. Other Factors:**

The conditional use zoning procedure is designed to provide for a land use that is not permitted by the established zoning district, but due to individual site considerations or unique development requirements would be compatible with adjacent land uses under given conditions.
