Transportation

Thoroughfare: Lamb Road

Existing Character: Collector Street

Proposed Changes: None

Public Transit:

The nearest VIA bus route is #100 within walking distance of the subject property.

ISSUE:

Plan Adoption Date: August 5, 2010

Update History: None

HOU-2.4

Consider the use of High Density Residential along the periphery of concentrated employment areas to foster a compatible land use transition between single family detached/attached residential neighborhoods and concentrated locations of non-residential uses.

Comprehensive Land Use Categories

Mixed Use Center: Mixed Use Center uses include both residential and non-residential uses. **RESIDENTIAL** uses are typically very High Density. Generally: High density detached, mid-high rise condominium buildings, apartment complexes, and row houses. **NON-RESIDENTIAL** uses include Community Commercial, Office, and Mixed Use. Generally: Detached or attached walkable retail services such as convenience stores, live/work units, cafes, pantry stores, hotels, and other businesses. **LOCATION:** Mixed Use Centers serve Suburban, General Urban, and Rural Tiers outside of the Urban Core Tier. Although mixed use developments are encouraged, Community Commercial and Office uses are also appropriate. The higher intensity of the residential and commercial uses should be located on, or at the intersection of, arterials and collectors. Streets should accommodate high volumes of commercial traffic for cars while accommodating safe and inviting access for pedestrians and bicycles within and around the center. High capacity transit should be encouraged.

Example Zoning Districts:

MF-40, MF-50, MF-65, O-1, O-1.5, O-2, C-1, C-2, C-2P, UD, FBZD, TOD, MXD, and MPCD

Comprehensive Land Use Categories

Suburban Tier: **Suburban Tier:** Uses include both residential and non-residential uses. **RESIDENTIAL: Low to Medium Density.** Generally: Small and large tract attached and detached single family; Multi-family

housing (duplex, triplex, quadplex); townhomes, garden homes, and condominiums. **NON-RESIDENTIAL: Neighborhood and Community Commercial.** Generally: Neighborhoods where detached retail services such as service stations, professional offices, bakeries, restaurants, bookstores, supermarkets, clinics, hotels, and other retail stores are appropriate. **LOCATION:** Commercial uses in Suburban areas serve both neighborhood and community scale markets. Neighborhood commercial is appropriate at the intersection of residential streets and collectors, and should not encroach into residential areas. Neighborhood uses should be accessible by pedestrians. Community commercial should be located at the intersections of arterials and/or collectors. The intensity of the commercial use should not interfere with the character and density of nearby residential uses and adequate buffers should be maintained. Community commercial uses should be accessible by car and bike, and the commercial areas should be pedestrian friendly.

Example Zoning Districts:

NP-15, NP-10, NP-8, R-6, R-5, R-4, R-3, RM-6, RM- 5, RM-4, MF-18, O-1, 0-1.5, NC, C-1, C-2, C-2P RD (Conservation Subdivision), UD

LAND USE ANALYSIS:

Sector Plan Criteria for review:

- The recommended land use pattern identified in the North Sector Land Use Plan inadequately provides appropriate optional sites for the land use change proposed in the amendment.

- The amendment must constitute an overall improvement to the Sector Plan and will not solely benefit a particular landowner or owners at a particular point in time.
- The amendment must uphold the vision for the future of the North Sector Plan.

The subject property is a single family residence. The proposed use for the property is to allow for multi-family housing. The properties that are located around the subject property include multi-family and single family residence uses which follow the current pattern for development of that area. The amendment upholds the vision for the future of the North Sector Plan as it supports the use of High Density Residential along the periphery of concentrated employment areas to foster a compatible land use transition between single family detached/attached residential neighborhoods and concentrated locations of non-residential uses. The proposed amendment to Suburban Tier will provide consistency with the surrounding areas and allow the applicant to seek the appropriate multi-family zoning. The proposed amendment to Suburban Tier land use will not significantly alter the land use pattern or character of the immediate area as the proposed change is compatible with the already-existing surrounding pattern of development.

The amendment will not adversely impact a portion of, or the entire Planning Area by;

- Significantly altering acceptable existing land use patterns, especially in established neighborhoods.
- Affecting the existing character (i.e. visual, physical, and functional) of the immediate area.
- Creating activities that are not compatible with adjacent neighboring uses, and, particularly, the mission of Camp Bullis.
- Significantly alter recreational amenities such as open space, parks, and trails.

The Suburban Tier land use classification would support the goals of the North Sector of to foster a compatible land use transition between single family detached/attached residential neighborhoods and concentrated locations of non-residential uses. The subject property is not within the boundaries of the Camp Bullis Influence Area, and is not anticipated to adversely affect any recreational amenities in the area.

ALTERNATIVES:

1. Recommend denial of the proposed amendment to the North Sector Plan, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date.

FISCAL IMPACT:

None

RECOMMENDATION:

Staff recommends approval. The proposed amendment to Suburban Tier land use will not significantly alter the land use pattern or character of the immediate area as the proposed change is compatible with the already-existing surrounding pattern of development.

PLANNING COMMISSION RECOMMENDATION: Approval (8-0)
