**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff and Zoning Commission (9-0) recommend Approval.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The subject property is located within the West/Southwest Sector Plan and is currently designated as Suburban Tier in the future land use component of the plan. Therefore, the current “I-1” designation is not consistent with the future land use component of the plan. The requested “R-6” base zoning district is consistent with the current land use designation.

**2. Adverse Impacts on Neighboring Lands:**

Staff has found no evidence of likely adverse impacts on surrounding properties.

**3. Suitability as Presently Zoned:**

The current “I-1” zoning designation is not appropriate for the location. The requested “R-6” district is appropriate for the subject property. The request for “R-6” will not have any negative effects on future development, but rather provide additional housing to the area. The site location is on a Local Street and it is surrounded by similar land residential uses.

**4. Health, Safety and Welfare:**

Staff has found no indication of likely adverse effects on the public health, safety or welfare.

**5. Public Policy:**

The request does not appear to conflict with any public policy objective.

**6. Size of Tract:**

The subject property is 0.2204 acres in size, which accommodates the proposed development with adequate space for parking.

**7. Other Factors:**

None.
