Property Details

Property History: The property was annexed by the City of San Antonio in 1971 and was originally "Temporary R-1" Temporary Residential District. Upon adoption of the 2001 Unified Development Code, the zoning converted to the current "R-6" Single-Family Residential District.

Topography: A western portion of the property is within a floodplain.

Adjacent Base Zoning and Land Uses

RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (9-0) recommend Approval, pending Plan Amendment.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the North Sector Plan and is designated as Suburban Tier in the future land use component of the Plan. The owner of the property proposes to develop the property with a Master Planned Community District that includes open space, residential, office and commercial uses. The “MPCD” Master Planned Community District is a special district which is evaluated on case by case basis. The request zoning is not consistent with the current future land use classification. The applicant has applied for a plan amendment to change the future land use classification to “Urban Core Tier.” Staff and Planning Commission recommend approval.

2. Adverse Impacts on Neighboring Lands:

Staff has found no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request.

3. Suitability as Presently Zoned:

Although the current zoning is not unsuitable, the proposed zoning change request appears to be compatible with the surrounding land uses and overall character of the area.

4. Health, Safety and Welfare:

Staff has found no evidence of likely negative impacts on public health, safety or welfare related to the zoning request.

5. Public Policy:

The requested zoning does not appear to conflict with any public policy objective. The zoning change request supports the North Sector Plan's goal of employment creation and business growth opportunities. The proposed location of multi-family residential and office uses serve as a buffer between the low-density single-family residential uses south of the subject property and the commercial uses to the north. The proposed amendment will increase open space areas along Leon Creek along the western boundary of the property, as well as set aside open space in the center of the property.

6. Size of Tract:

The subject property measures approximately 144.2 acres, which is sufficient to accommodate the proposed development with adequate space for parking.

7. Other Factors:

Master Planned Community District is a special district established to encourage the development of areas of mixed uses that are internally compatible in an effort to achieve well designed development and provide a more efficient arrangement of land uses, building and circulation systems.

Staff has reviewed the site plan and recommends approval of the proposed uses. Camp Bullis has submitted recommendations that will mitigate any potential negative effects that may occur as a result of the proposed development.
