None.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (8-0) recommend Approval

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the Stinson Airport Vicinity Land Use Plan and is currently designated as Regional Commercial in the future land use component of the plan. The proposed “C-3” base zoning district is consistent with the future land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The Brooks City Base campus is transitioning from the former military base and related uses to a regional residential and commercial mixed use hub.

3. Suitability as Presently Zoned:

The "MR" district is meant to accommodate a range of land uses on military installations under federal authority. When ownership of the former Brooks Air Force Base transferred away from the military, the "MR" zoning district became inappropriate and rezoning has been needed to allow redevelopment of the area. The “MR” district allowed uses permitted in “O-1”; however, the range of uses remains very limited and a 10,000 square-foot building size limit is imposed.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The higher intensity of the residential and commercial uses should be located on, or at the intersection of arterials and collectors. The request does not appear to conflict with any public policy objective.

6. Size of Tract:

The subject property measures 24.409 acres and is sufficient for the proposed development and parking requirements.

7. Other Factors:

None.
