RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval, pending Plan Amendment.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the Northeast Inner Loop Community Plan, and is currently designated as Public/Institutional in the future land use component of the plan. The requested "RM-4" Residential Mixed district is not consistent with the future land use designation. The applicant has requested a plan amendment to Low Density Residential. Staff and Planning Commission recommend Approval.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The applicant requests this zoning change to construct 10 single-family units with various elevations and architectural styles on the subject property. The subject property is located in between a church and apartment complex, with Northridge Park directly behind the site. The subject property's location is surrounded by single-family and multi-family uses, which makes limited density single family uses an appropriate use.

3. Suitability as Presently Zoned:

The current "RM-4" base zoning district is appropriate for the subject property's location; the surrounding uses are residential, and "RM-4" is within the same scope of small scale residential uses.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The rezoning request does not appear to conflict with any public policy objective.

6. Size of Tract:

The subject property totals 2.13 acres in size, which should reasonably accommodate the uses permitted in

“IDZ” Infill Development Zone District.

7. Other Factors:

The developer has been in contact with the Parks Department and will provide some improvements to the Northridge Park that will benefit new and remaining residents in the neighborhood.
