## BACKGROUND INFORMATION:

City Council approved \$64 million in the FY 2017 Budget to complete both in-house and contract street maintenance projects. Of this amount, approximately 97 miles and \$54 million in street maintenance projects will be completed through the use of construction contractors. These contracts also will be utilized to complete \$400,000.00 of bus pads funded with the City's Advanced Transportation District funds, \$661,990.00 of utility adjustments to be reimbursed by SAWS and \$93,600.00 of utility adjustments to be reimbursed by CPS Energy.

The Transportation & Capital Improvements Department solicited bids for construction services and will be utilizing various construction companies to complete these projects. Additional contracts are scheduled to be awarded at a later date.

These proposed ordinances authorize additional contract capacity in the amount of \$26,482,246.65 for the construction of FY 2017 street maintenance projects. Table 1 summarizes construction amounts for items A, B, C, and D being presented for City Council consideration.

Bids for Package 1 bids were due on August 23, 2016, for Package 2 bids were due on August 30, 2016, for Package 3 bids were due on September 6, 2016, and for Package 12 bids were due on August 30, 2016.

Each contract will be awarded in compliance with the Small Business Economic Development Advocacy (SBEDA) Program, which requires contracts be reviewed by a Goal Setting Committee to establish a requirement and/or incentive unique to the particular contract in an effort to maximize the amount of small, minority, and women-owned business participation on the contract. The Goal Setting Committee set a Minority/Women Business Enterprise (M/WBE) subcontracting goal and an African American Business Enterprise (AABE) subcontracting goal for each contract. The table below shows the M/WBE and AABE commitments for each package proposed for contract award through these ordinances.

#### **ALTERNATIVES:**

City Council could choose not to award these contracts and request staff to re-bid these two packages; however, there are no guarantees this will result in more favorable prices. Re-bidding would delay the delivery of the FY 2017 Street Maintenance Program and would result in a portion of the street maintenance projects not being completed as programmed.

#### **FISCAL IMPACT:**

##### **Items A to D, Contract Award for Four Street Maintenance Program Packages**

Funding for these projects may include, but is not limited to, General Fund, Certificates of Obligation, Advanced Transportation District (ATD) Program, ROW Penalty Funds, and other funding sources.

Requirements for each task shall be detailed in the individual work orders assigned. The City makes no minimum guarantee pertaining to the volume of work. If funding for any work activities is not previously appropriated, funding will be identified and appropriated through subsequent City Council action as shown below:

**Table 3.**

<b>Item</b>	<b>Contractor</b>	<b>Pkg.</b>	<b>Base Bid</b>	<b>SAWS</b>	<b>CPS</b>
A	Clark Construction	1	\$8,131,477.00	\$281,500.00	\$43,000.00
B	J&P Paving Co.	2	\$3,673,262.85	\$98,500.00	\$7,600.00
C	Clark Construction	3	\$8,022,933.50	\$281,500.00	\$43,000.00

Total			\$25,726,656.65	\$661,990.00	\$93,600.00

Adjustments will be reimbursed to the City by SAWS and/or CPS as projects are identified.

#### **RECOMMENDATION:**

Staff recommends approval of these four contracts in the amount of 26,482,246.65 to complete the street maintenance projects identified in the FY 2017 Infrastructure Management Programs.
