Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is not located within any adopted Neighborhood, Community or Sector Plan. The existing “C-3” base zoning district is consistent with the surrounding commercial development pattern. The existing location is encouraged by the Major Thoroughfare Plan for such intense use.

2. Adverse Impacts on Neighboring Lands:

Staff has found no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed request is consistent with the surrounding land uses.

3. Suitability as Presently Zoned:

The existing “C-3” base zoning district is consistent with its location and adjacent zoning districts on the major thoroughfares.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The request does not appear to conflict with any public policy objective.

6. Size of Tract:

The subject property measures 1.13 acres in size and is sufficient for the proposed request.

7. Other Factors:

The purpose of the Specific Use Authorization is to provide for certain uses which, because of their unique characteristics or potential impacts on adjacent land uses, are not generally permitted in certain zoning districts as a matter of right, but may, under the right set of circumstances and conditions be acceptable in certain

specific locations.
