All surrounding properties carry the "ERZD" Edwards Recharge Zone District. The "ERZD" does restrict permitted uses, due to the environmentally sensitive nature of the recharge zone. Per Chapter 34 of the City of

San Antonio Code of Ordinances, the San Antonio Water System (SAWS) and City of San Antonio departments share regulatory jurisdiction over development within the “ERZD”.

**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Approval, pending Plan Amendment.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The subject property is located within the North Sector Plan and is currently designated as Suburban Tier land use in the future land use component of the plan. The requested zoning “MF-33” is not permitted under the current land use designation. The applicant has requested an associated plan amendment to General Urban Tier. Staff recommends Approval. Planning Commission hearing date was continued to July 27, 2016.

**2. Adverse Impacts on Neighboring Lands:**

Staff has found no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request.

**3. Suitability as Presently Zoned:**

The existing commercial zoning districts are appropriate for the subject property, however, the property currently sits vacant and the requested “MF-33” is also a suitable zoning. Under the current Suburban Tier and requested General Urban Tier land use designations, multi-family zonings are permitted.

**4. Health, Safety and Welfare:**

Staff has found no indication of likely adverse effects on the public health, safety or welfare.

**5. Public Policy:**

The request does not appear to conflict with any public policy objective. The zoning request fulfills the goals and strategies of the North Sector Plan, by integrating mixed use areas vertically as well as horizontally, allowing for differing uses within the same building, as well as within the same project area.

**6. Size of Tract:**

The subject property measures 10.673 acres tract is sufficient to accommodate the proposed multi-family development and parking requirements.

**7. Other Factors:**

SAWS identifies the subject property as a Category 1 property. SAWS staff recommends approval of the zoning request, provided that the impervious cover shall not exceed 50% on the site. Reference SAWS report dated December 18, 2015.
