COUNCIL DISTRICTS IMPACTED: Citywide

SUBJECT:

Municipal Boundary Adjustments and Extraterritorial Jurisdiction Releases to the City of Converse.

SUMMARY:

A Public Hearing and Resolution recommending approval of an interlocal agreement between the City of San Antonio and the City of Converse regarding the operation and maintenance of a city park, and with the City of San Antonio releasing approximately 12 square miles (7,680 acres) from its Extraterritorial Jurisdiction (ETJ); and San Antonio releasing approximately 3.6 square miles (2,287 acres) from its corporate area to Converse in an area bounded by I.H. 35 on the north, the City limit line east of NE Loop 1604 on the east and I.H. 10 East on the South in Bexar County, Texas. (Bridgett White, Director, Planning and Community Development, 207-0147, Bridgett.White@sanantonio.gov)

BACKGROUND INFORMATION:

The City of San Antonio proposes to release 12 square miles (7,680 acres) from the unincorporated area of San Antonio's ETJ and approximately 3.6 square miles (2,287 acres) from the City limits of San Antonio to Converse. (The boundaries of the areas are depicted in **Exhibit "A"**.) The two cities are entering into a multi-phase agreement to ensure that underserved areas in unincorporated Bexar County receive urban level of services. This regional planning effort will bring growth opportunities and provide sufficient revenue to Converse for the delivery public service to fast growing unincorporated area upon annexation.

In June 2016, San Antonio removed the IH 10 East/Loop 1604 area from its annexation program. San Antonio and Converse initiated dialogue regarding potential annexation by Converse of unincorporated ETJ areas and ceding municipal boundaries along IH 10 East, Loop 1604/Graytown Road, Seguin Road/FM 78 and Gibbs Sprawl Road.

ETJ Phases - In six phases, San Antonio will grant 12 square miles of ETJ area to Converse for the purpose of annexation by 2029. San Antonio will release ETJ area according to State law. Texas cities are permitted to seek the release of another city's existing ETJ area with the written consent from the releasing city's governing body. State law allows cities with a population of 5,000 to 24,999 a one mile ETJ area around their city limits (Converse's 2015 US Census population was 21,987). Converse, a home rule municipality may annex properties unilaterally or by consent of the property owners. Except for the first phase, each phase will occur over a three year period to allow Converse time to initiate and complete the annexation of the area. San Antonio will release subsequent phases provided that Converse has annexed the preceding phases prior to the release.

In Phase 1, San Antonio will transfer approximately 600 acres (0.94 square miles) of ETJ area generally located west of NE Loop 1604, south of the city limits of Converse, east of FM 1516 and north of the IH 10 East by June 30, 2017. There is a proposed 185 acres residential development which has requested annexation by Converse. Currently the area is mostly rural with approximately 70 residents. The entire Phase 1 area would be immediately annexed into Converse because there are less than a hundred residences in the area.

In Phase 2, San Antonio will release approximately 1,225 (1.9 square miles) by November 30, 2017. Phase 2 consists of three areas, the Crestway Road and Gibbs Sprawl Road, Seguin Road-FM 78 and Weichold Road areas. The Crestway Road and Gibbs Sprawl Road area is generally bounded on the north by Crestway Road, on the east by the city limit line of Converse and on the south by Gibbs Sprawl Road. This area includes portions of the Glen, Camelot II, and Crownwood neighborhoods and an Army Retirement Center.

The Seguin Road-FM 78 area is located along the corridor and bounded on the east by the city limit line of Converse and on the west by Walzem Road. The area is an emerging commercial corridor and includes the residences adjacent to the corridor. The Weichold Road area extends north and south of Weichold Road to the north, is bounded on the east by NE Loop 1604, is bounded on the south by the San Antonio city limit line near IH 10 East and bounded on the west by FM 1516. The Weichold Road area includes a low density residential area and the Parc at Escondido subdivision. Overall the Phase 2 area has over 7,500 residents.

In Phase 3, San Antonio will release approximately 925 acres (1.5 square miles) of its ETJ by November 30, 2020. The area is generally bounded on the north by Crestway Road, on the east by the city limit line of

Converse, on the south by Gibbs Sprawl Road and on the southwest and west by Eisenhower Road and Eagle Crest Boulevard along the City limit line of Windcrest. The remainders of Camelot II and Glen neighborhoods are located within this area. The Phase 3 area has approximately 8,900 residents.

In Phase 4, San Antonio will release approximately 1,106 acres (1.7 square miles) of its ETJ by November 30, 2023. The area is generally bounded on the north by Gibbs Sprawl Road, on the east by the city limit line of Converse on the south by FM 1518, and on the west by Walzem Road. This area contains Ventura, Spring Meadow, Brentfield, Meadow Brook, Dover and Field of Dover neighborhoods. The Phase 4 area has over 11,300 residents.

In Phase 5, San Antonio will release approximately 2,045 acres (3.2 square miles) of its ETJ by November 30, 2026. The area is generally bounded on the north by the city limits line of San Antonio south of Gibbs Sprawl Road, on the east by Walzem Road, on the south by the city limits line of San Antonio near IH 10 East, and on the west by Martinez Creek, Woodlake Parkway, Golf Vista Blvd, Woodlake Trail, Redstone Manor and Sterling Manor. Metzger Middle School is located in this area. This area contains the Estates, Mustang Valley, Escondido North, Escondido Creek, Key Largo subdivisions. Approximately 6,900 people live in the Phase 5 area.

In Phase 6, San Antonio will release 1,774 acres (2.8 sq. miles) of its ETJ by November 30, 2029. The area is generally bounded on the north by the city limits line of San Antonio along Seguin Road (FM 78), on the east by Martinez Creek, Woodlake Parkway, Golf Vista Blvd, Woodlake Trail, Redstone Manor and Sterling Manor, on the south by the city limits line of San Antonio near IH 10 East, and on the west by North Foster Road. The Phase 6 area contains several large neighborhoods including Woodlake and Woodlake Park. The area includes Wagner High School and several commercial centers including Woodlake Crossings Shopping Center, Target and Wal-Mart stores. More than 7,900 residents live in the Phase 6 area.

San Antonio and Converse have agreed to previous ETJ exchanges and municipal boundary adjustments in 1979 and 2006. As a result of those agreements, Converse gained approximately 261 acres of land. In 2006, the two Cities agreed that Converse would be the first responder to fire and emergencies calls within the City limits of San Antonio, along the Loop 1604/IH 10 East area and the North Hampton Subdivision. This ten year agreement expired on November 2016. Since then the two cities agreed to a three months extension with three term extensions until the approval of an interlocal agreement which will include mutual fire aid terms.

The City of San Antonio does not provide municipal services to unincorporated areas within its ETJ. For the ETJ transferred properties, there would be no changes in service providers including:

- SAWS -water purveyor
- San Antonio River Authority - sewer provider
- CPS Energy
- Bexar County Sheriff's Office
- Emergency Services District (ESD) No. 1 delivered by City of Converse Fire Department
- ESD No. 10 and No. 11
- Kirby Fire Department,
- Acadian Ambulance Services, a Bexar County contractor, for emergency medical transport.

Upon future annexation of the ETJ transferred properties, Converse would provide full municipal services including police and fire protection, emergency medical services, garbage collection and code enforcement,

and extend city codes and regulations to these areas.

Municipal Boundary Adjustments - These ETJ releases would be accompanied by a series of municipal boundary adjustments of 1000 feet in width that would cede several commercial corridors including IH 10 East, FM 78-Seguin Road, Loop 1604, Graytown Road and Gibbs Sprawl Road by 2033. San Antonio will relinquish approximately 3.6 square miles (2,287 acres) of its corporate area which currently is within City Council District 2. Most of these areas are generally commercial and low density residential area. The Northampton neighborhood in the Gibb-Sprawl Road area is the most populated area with approximately 2,750 residents. The entire neighborhood would be transferred to Converse by the end of 2019.

State law authorizes adjacent Texas cities to make mutually agreeable changes in municipal boundaries as long as the areas are less than 1,000 feet in width [Sec.43.031 of the Texas Local Government Code]. Converse would immediately incorporate the properties affected by municipal boundary adjustments and assume responsibility for providing full municipal services and extending city codes and regulations to the area. Converse has been experiencing growth and is prepared to absorb the new areas. Converse is building a second new fire station, a new city hall facility and a new animal control facility.

ISSUE:

An interlocal agreement with Converse, which is attached as **Attachment I**, will detail the schedule, terms and multi-phase annexation plan for ETJ phases and municipal boundary adjustments. The interlocal agreement will allow Converse to provide zoning, land use controls, clear and logical planning boundaries, uniform regulations and service delivery in the subject area. For the ETJ transferred properties, Converse would:

- Extend subdivision regulations to the ETJ released property;
- Establish the same amount of right-of-way required by the San Antonio Major Thoroughfare Plan and San Antonio's Uniform Development Code (UDC Section 35-500 for designated arterials in the subject area
- Prohibit new billboards in the ETJ Transferred Property in accordance with the City of Converse's Unified Development Code (the "UDC") Section 35-506(c)(2)(d) and Table 506-3; and
- Apply land use and zoning recommendations in the Randolph Joint Land Use Study to the ETJ Transferred Property; and
- Pay for 50% of the cost for all engineering work related to producing a boundary description (metes and bounds) of the territory to be released.

San Antonio and Converse will negotiate the disposition of a City owned park (Northampton) land and equipment. The interlocal agreement is contingent on the City Council of Converse approving the agreement at their scheduled meeting on March 21, 2017.

ALTERNATIVES:

Alternatives would be to approve the release for a portion of the area, or deny the release. The City of San Antonio may also negotiate modified terms in the proposed agreement.

FISCAL IMPACT:

The proposed ETJ transfers are fiscally neutral. There is no general fund revenue loss for San Antonio associated with ETJ releases. San Antonio does not assess City property or sales taxes to unincorporated areas in the County. The current ad valorem value for properties within the ETJ Phase is \$2,007,837,878. Currently, San Antonio's Development Services Department collects fees for plats, MDPs and rights determinations processed for properties within San Antonio's ETJ. If released, Development Services fees would not be collected by San Antonio. SAWS and CPS Energy fees will continue to be assessed to all properties.

For the all properties affected by the municipal boundary adjustments the current property value is \$301,512,920. Based on the 2016 City of San Antonio property tax rate, estimated revenue from ad valorem taxes is \$1,733,500, annually. The transfer of property and corresponding revenue would transpire over a course of 16 years. Although San Antonio would cede tax revenues from the proposed adjustments, San Antonio would realize cost savings for the maintenance and operation of the Northampton Park, as well as for other City services including roads, fire, police, code compliance in the area released from San Antonio's corporate area.

RECOMMENDATION:

Staff recommends **Approval** of the Resolution recommending an interlocal agreement between the City of San Antonio and the City of Converse with San Antonio releasing approximately 12 square miles (7,670 acres) from San Antonio's ETJ and approximately 3.6 square miles (2,287 acres) from its corporate area to Converse in an area bounded by I.H. 35 on the north, the City limit line east of NE Loop 1604 on the east and I.H. 10 East on the south in Bexar County, Texas is forwarded to City Council for action.
