RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (9-0) recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the Stinson Airport Vicinity Land Use Plan, and is currently designated as Low Density Residential in the future land use component of the plan. The requested “R-6” Residential base zoning district is consistent with the future land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The applicant proposes to down zone the property to allow for a childcare facility.

3. Suitability as Presently Zoned:

The current “MF-33” base zoning district is not appropriate for the subject property’s location. The surrounding area consists of single-family residences and the proposed “R-6” would be an appropriate fit.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The rezoning request does not appear to conflict with any public policy objective, because it is consistent with the plan.

6. Size of Tract:

The subject property totals 0.341 acres in size, which should reasonably accommodate the uses permitted in “R-6” Residential Single-Family District.

7. Other Factors:

The purpose of the Specific Use Authorization is to provide for certain uses which, because of their unique characteristics or potential impacts on adjacent land uses, are not generally permitted in certain zoning districts as a matter of right, but with may, under the right set of circumstances and conditions be acceptable in certain specific locations.
