Overlay and Special District Information:

Historic District and Landmarks, or “H” designation, convey areas in which the cultural or archaeological identity, architectural features, or overall character are considered historically significant.

Additionally, all surrounding properties carry the "AHOD" Airport Hazard Overlay District, due to their proximity to an airport or approach path. The "AHOD" does not restrict permitted uses, but can require additional review of construction plans by both the Development Services Department and the Federal Aviation Administration.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is not located within any neighborhood, community, or sector future land use plans, therefore a finding of consistency is not required.

2. Adverse Impacts on Neighboring Lands:

Staff has not found evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area.

3. Suitability as Presently Zoned:

The existing “I-1” base zoning district is not appropriate for the surrounding area. The property is adjacent to commercial and residential land uses.

4. Health, Safety and Welfare:

Staff has not found any indication of likely adverse effects on the public health, safety, or welfare. The building on the property is currently vacant, and this zoning change will lead to the renovation and occupancy of this building which will not create any adverse effects.

5. Public Policy:

The request does not appear to conflict with any public policy objectives because it is consistent with the development pattern of the surrounding area.

6. Size of Tract:

The 0.4109 acre site is of sufficient size to accommodate the proposed development. The building already exists on the site and the project is looking to renovate and revitalize the historic building.

7. Other Factors:

Infill Development Zone (IDZ) provides flexible standards for developments. IDZ is to encourage and facilitate development on vacant, bypassed lands, or the redevelopment of underutilized buildings or structures, within existing built-up areas. IDZ may be approved as either a base zoning district or an overlay zoning district. Standards required in an IDZ district shall apply to either IDZ base zoning or the IDZ overlay district except where otherwise specifically stated. Typically IDZ gives flexibility to parking requirements, lots sizes, and setbacks.
