Comprehensive Land Use Categories

Low Density Residential: Low-density residential uses include single-family houses on individual lots. Low-density residential also includes duplexes and granny flats or garage apartments. Existing three and four family dwellings are desired within the geographic area of this classification (See Proposed Land Use Plan Map). However, new three and four family dwellings, including conversion of large single-family homes are not desired.

Example Zoning Districts:

R-5, R-6, NP-8, NP-10, NP-15, IDZ, and UD

Comprehensive Land Use Categories

High Density Residential: High-density residential uses include large apartment buildings. Medium and low-density residential uses also can be found within this classification.

Example Zoning Districts:

MF-25, MF-33, UD, as well as IDZ with density permitted in MF-25, MF-33, and UD

LAND USE ANALYSIS:

The applicant requests this plan amendment and associated zoning change in order to increase the density to allow six single- family dwelling units on the subject property. The subject property is in an area that includes Medium and High Density Residential which makes the subject property appropriate for the High Density Residential land use classification. The High Density Residential classification supports the Lavaca Neighborhood Plan goal of improving the overall quality of housing while maintaining the historic character.

ALTERNATIVES:

1. Recommend denial of the proposed amendment to the Lavaca Neighborhood Plan, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date.

FISCAL IMPACT:

None

RECOMMENDATION:

Staff recommends approval. The subject property is located in an area where Medium and High Density Residential are prevalent. The High Density Residential designation would be appropriate land use classification due to the lot size and existing structures on the subject property.

PLANNING COMMISSION RECOMMENDATION:

Approval (7-0)
