RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (9-0) recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is not currently located within any future land use plan, therefore a finding of consistency is not required.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The applicant proposes to develop the property for warehouse/office space and outside storage of containers and the surrounding properties are currently being used for industrial purposes. This use is consistent with neighboring land uses.

3. Suitability as Presently Zoned:

The proposed “I-1” would be consistent with the existing pattern of development in the area. “R-5” would not be an ideal zoning district, with the intensity of the surrounding uses.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The rezoning request does not appear to conflict with any public policy objective, because the request is consistent with the plan.

6. Size of Tract:

The subject property totals 0.581 acres in size, which should reasonably accommodate the uses permitted in “I-1” General Industrial District.

7. Other Factors:

None.
