RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the West Sector Plan and is currently designated as General Urban Tier in the land use component of the plan. The requested “MF-33” base zoning district is consistent with the adopted land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff has not found evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area.

3. Suitability as Presently Zoned:

The existing “R-6” base zoning district is not appropriate for the subject property. While there is single-family residential surrounding the property, it is currently standing as a multi-family development and needs to be brought up to compliance.

4. Health, Safety and Welfare:

Staff has not found any indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The request does not appear to conflict with any public policy objective because it is consistent with the adopted land use plan.

6. Size of Tract:

The subject property measures 0.2111 acres which should reasonably accommodate the uses permitted in "C-2P" Commercial Pedestrian District.

7. Other Factors:

None.
