**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Approval, pending Plan Amendment.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:** The property is located within the North Sector Plan, and is currently designated as “Suburban Tier” in the future land use component of the plan. “The MF-33” base zoning district is not consistent with the adopted land use designation. The applicant has applied for a Plan Amendment to change the designation to “General Urban Tier”. Staff and Planning Commission recommend approval.

**2. Adverse Impacts on Neighboring Lands:** Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request.

**3. Suitability as Presently Zoned:** The current “MF-18” base zoning district is appropriate for the surrounding area. The majority of surrounding property is “C-2”, “C-3” and “MF-33”.

**4. Health, Safety and Welfare:** Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

**5. Public Policy:** The rezoning request does not appear to conflict with any public policy objective as the request supports the North Sector Plan goal of locating medium and high density residential uses located at intersections of arterials and/or collector streets and should not encroach into residential areas.

**6. Size of Tract:**

The 14.26 acre tract is of sufficient size for an “MF-33”.

**7. Other Factors:**

The SAWS report has classified the subject property as Category 2. SAWS staff recommends approval of the zoning request with an impervious cover limitation not to exceed 50%.
