Legislation Details

File #: 17-3387

Type: Staff Briefing - Without Ordinance

In control: Planning Commission

On agenda: 5/24/2017

Title: TPV 17-012 Variance Request by Mr. David Cupit, for approval of a tree preservation variance request from Unified Development Code 35-523 (h), "significant trees shall be preserved at eighty (80) percent and heritage trees at one hundred (100) percent preservation within both the 100-year floodplains and environmentally sensitive areas." Due to existing site conditions, design and layout constraints, and the contractor not following the previously approved tree plan, the project is unable to preserve the minimum 80% of significant trees and 100% of heritage trees within the 100-year Floodplain and Environmentally Sensitive Area (ESA). The required mitigation for both the 100-year floodplain and Environmentally Sensitive Area will be met by upsizing the required 2 trees per lot, adding an additional 2 trees per lot (for a total of 4 trees per lot) and paying the remaining portion of mitigation with tree credits. (Herminio Griego, (210) 207-6042, herminio.griego@sanantonio.gov, Development Services Department)
