**ISSUE:**

**Plan Adoption Date:** August 5, 2010

HOU-1.2 Encourage compatible growth patterns and transitions of higher density residential along principal arterials and transit corridors that fit in with the existing residential character of the North Sector.

HOU-2.4 Consider the use of High Density Residential along the periphery of concentrated employment areas to foster a compatible land use transition between single family detached/attached residential neighborhoods and concentrated locations of non-residential uses.

LU-1.3 Promote a variety of housing types, including apartments, lofts, condominiums, townhouses and single family attached and detached housing between Loop 1604 and Loop 410.

LU-6.5 Encourage development that is visually and functionally compatible with its surrounding neighborhoods by maintaining a massing and density of development that is compatible with adjacent developed neighborhoods.

**Comprehensive Land Use Categories**

**Suburban Tier:** Generally allows for small and large tract attached and detached single family; Multi-family housing (duplex, triplex, quadplex); townhomes, garden homes, and condominiums.

**Example Zoning Districts:** NP-15, NP-10, NP-8, R-6, R-5, R-4, R-3, RM-6, RM-5, RM-4, MF-18, O-1, O-1.5, NC, C-1, C-2, C-2P, RD (Conservation Subdivision), UD

**Comprehensive Land Use Categories**

**General Urban Tier:** High-density residential uses include large apartment buildings. Medium and low-density residential uses also can be found within this classification.

**Example Zoning Districts:**

R-4, R-3, RM-6, RM-5, RM-4, MF-18, MF-25, MF-33, O-1.5, C-1, C-2, C-2P, UD

**LAND USE ANALYSIS:**

**Sector Plan Criteria for review:**

- The recommended land use pattern identified in the North Sector Land Use Plan inadequately provides appropriate optional sites for the land use change proposed in the amendment.
- The amendment must constitute an overall improvement to the Sector Plan and will not solely benefit a particular landowner or owners at a particular point in time.
- The amendment must uphold the vision for the future of the North Sector Plan.

While the North Sector Plan provides other areas with the requested land use classification, the subject property's close proximity to a major arterial, North Loop 1604 West, makes this area appropriate for more intense residential development. The proposed amendment to General Urban Tier will provide consistency with the surrounding areas and allow the applicant to seek the appropriate "MF-33" base zoning district. The proposed amendment to General Urban Tier land use will not significantly alter the land use pattern or character of the immediate area as the proposed change is compatible with the already-existing surrounding pattern of development.

**The amendment will not adversely impact a portion of, or the entire Planning Area by;**

- Significantly altering acceptable existing land use patterns, especially in established neighborhoods.
- Affecting the existing character (i.e. visual, physical, and functional) of the immediate area.
- Creating activities that are not compatible with adjacent neighboring uses, and, particularly, the mission of Camp Bullis.
- Significantly alter recreational amenities such as open space, parks, and trails.

The applicant requests this plan amendment and associated zoning change in order to increase the density to allow multi-family development on the subject property. The subject property is in an area that includes Medium and High Density Residential which makes the subject property appropriate for the General Urban Tier land use classification. The General Urban Tier supports the North Sector Plan goal of locating medium and high density residential uses located at intersections of arterials and/or collector streets and should not encroach into residential areas.

**ALTERNATIVES:**

1. Recommend denial of the proposed amendment to the North Sector Plan, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date.

**FISCAL IMPACT:**

None

**RECOMMENDATION:**

Staff recommends approval. The subject property is located in an area where Medium and High Density Residential are prevalent. The High Density Residential designation would be appropriate land use classification due to the lot size and existing multi-family developments on the nearby subject property.

**PLANNING COMMISSION RECOMMENDATION:**

Approval (7-0).
