RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (10-0) recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the United Southwest Community Plan and is currently designated as “Regional Commercial” in the future land use component of the plan. The requested “C-3” is consistent with the future land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request as adjacent properties carry similar zoning.

3. Suitability as Presently Zoned:

The current “C-3R” base zoning district is appropriate for the surrounding area. The adjacent properties are predominantly “C-3R” and “C-3”. The subject property is currently vacant.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare. The requested zoning change is requested in order to construct a restaurant with alcohol sales which should not have an adverse impact on the public health, safety, or welfare of the citizens of San Antonio.

5. Public Policy:

The request to change the zoning from “C-3R” to “C-3” in order to build a restaurant is in agreement with the United Southwest Community Plan and the Comprehensive Plan goals.

Goals:

United Southwest Community Plan:

Goal 1 - Economic Development - Attract new businesses, services and retail establishments to the United Southwest Communities.

Comprehensive Plan:

Economic Development - Goal 4 - Provide economic opportunities in targeted areas, particularly within Loop 410 and the southern sector

6. Size of Tract:

The subject property measures 2.4365 acres which should reasonably accommodate a restaurant.

7. Other Factors:

Joint Base San Antonio (JBSA) is not objecting to the zoning request. Below are additional comments from JBSA.

- a. Potential restaurant lots exist in an area already zoned commercial
- b. Any construction, building equipment (cranes), towers (communication or water) will need to be evaluated.
- c. In order to mitigate potential interference with existing JBSA operational systems, please coordinated with 502 CS Spectrum Manager prior to use of any Spectrum dependent systems (i.e.: two-way radio communications, or any type of wireless technologies) during construction. If applicable, coordination is also requested by facility user prior to installation/use of any Spectrum dependent commercial or manufacturing equipment.
