RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (9-0) recommend Approval, pending Plan Amendment

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the San Antonio International Airport Vicinity Plan and is currently designated “Light Industrial” and “Business Park” in the future land use component of the Plan. The requested “I-1” base zoning district is inconsistent with the “Business Park” future land use designation. The applicant has requested a plan amendment to designate the entire site as “Light Industrial”. Staff and Planning Commission recommend approval.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request.

3. Suitability as Presently Zoned:

The current “R-6” base zoning district is not appropriate for the surrounding area. The subject property is bounded by “I-1” zoning.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare. The request for a change in zoning will allow for the expansion of an office and parking space which supports the existing business currently operating on the abutting property.

5. Public Policy:

The request does not appear to conflict with any public policy objective. Goal V of the plan supports the implementation of land use strategies in a coordinated and phased process. The request for a zone change will allow for the expansion of an existing business, to include office space and parking, which is an additional phase of growth for the organization.

6. Size of Tract:

The subject property measures 4.329 acres which should reasonably accommodate the uses permitted in “I-1” General Industrial district.

7. Other Factors:

None.
