Staff Analysis and Recommendation: Staff and Zoning Commission (9-0) recommend Denial.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the West/Southwest Sector Plan, and is currently designated as General Urban in the future land use component of the plan. The requested “R-6” Residential Single-Family base zoning district is consistent with the future land use designation. However, staff was unable to identify other duplex uses within the area.

2. Adverse Impacts on Neighboring Lands:

The subject property is surrounded by single-family uses. The requested “R-6 CD” with conditional use for a duplex is not within character of the neighborhood.

3. Suitability as Presently Zoned:

The current “R-6” base zoning district is appropriate for the subject property’s location. However, the use of a duplex is inconsistent with the development pattern in the community.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The rezoning request does not appear to conflict with any public policy objective, because it is consistent with the plan.

6. Size of Tract:

The subject property totals 0.1864 acres in size, which reasonably accommodates the uses permitted in “R-6” Residential Single-Family District.

7. Other Factors:

The purpose of the Conditional Use is to provide for certain uses which, because of their unique characteristics or potential impacts on adjacent land uses, are not generally permitted in certain zoning districts as a matter of right, but which may under the right set of circumstances and conditions be acceptable in certain specific locations.
