**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff and Zoning Commission (10-0) recommend Approval with Conditions.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The subject property is located within the San Antonio International Airport Vicinity Land Use Plan and is currently designated as Community Commercial in the land use component of the plan. The requested “C-2” base zoning district is consistent with the adopted land use designation.

**2. Adverse Impacts on Neighboring Lands:**

The subject property is located adjacent to a residential neighborhood; however, the potential negative effects can likely be mitigated by appropriate development standards and recommended conditions. The proposed use is consistent with the established development pattern of the surrounding area.

**3. Suitability as Presently Zoned:**

The current “C-2” base zoning district is appropriate for as presently zoned. It is located on the corner property nearby other small commercial corner lots and off of a second arterial street.

**4. Health, Safety and Welfare:**

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

**5. Public Policy:**

The request does not appear to conflict with any public policy objective because it is consistent with the adopted land use plan.

**6. Size of Tract:**

The subject property measures 3.073 acres which should reasonably accommodate the uses permitted in “C-2” Commercial District.

**7. Other Factors:**

The rezoning request should consider being approved with the following conditions:

1. No use of outdoor amplification speakers
2. Any outdoor vacuums be located at least fifty (50) feet from neighboring residential uses
3. Outdoor lighting be directed away from neighboring residential uses
