The subject property is not located within a half-mile of a Premium Transit Corridor.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (11-0) recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is not located within any adopted land use plan. Therefore, a finding of consistency is not required.

2. Adverse Impacts on Neighboring Lands:

Staff has not found evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area.

3. Suitability as Presently Zoned:

The current “C-3” base zoning district is appropriate as presently zoned considering it is located within the Brooks Regional Center. The potential for single-family dwelling development is also suitable as it will provide homes for San Antonio’s growing population.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare. The subject property is away from the highway, so the request for a less-intense zoning does not seem to indicate any likely adverse effects on the surrounding area.

5. Public Policy:

The request does not appear to conflict with any public policy objective.

6. Size of Tract:

The subject property measures 3.29 acres which should reasonably accommodate single-family dwellings.

7. Other Factors:

None
