RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (10-0) recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the North Sector Plan, and is currently designated as “General Urban Tier” in the future land use component of the plan. The requested “C-2” Commercial base zoning district is consistent with the future land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The requested zoning change for a school, blends in with the surrounding commercially zoned properties of the area that including other auto sales services and businesses.

3. Suitability as Presently Zoned:

The current “C-2” base zoning district is appropriate for the subject property’s location. The requested commercial zoning with a Conditional Use for Motor Vehicles Sales is consistent for the area. The subject property is surrounded by commercial development that can support the proposed zoning.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare. The surrounding land uses include several commercial properties.

5. Public Policy:

The rezoning request does not appear to conflict with the land use goals and strategies of the North Sector plan that encourages compatible economic development along major transportation routes and existing activity centers that do not interfere with the mission of Camp Bullis.

6. Size of Tract:

The subject property totals 0.2530 acres in size, which should reasonably accommodate the uses permitted in “C-2 CD” Commercial District with Conditional Use for Motor Vehicle Sales.

7. Other Factors:

The purpose of the Conditional Use is to provide for certain uses which, because of their unique characteristics or potential impacts on adjacent land uses, are not generally permitted in certain zoning districts as a matter of right, but which may under the right set of circumstances and conditions be acceptable in certain specific locations.
