Overlay and Special District Information:

All surrounding properties carry the "AHOD" Airport Hazard Overlay District, due to their proximity to an airport or approach path. The "AHOD" does not restrict permitted uses, but can require additional review of construction plans by both the Development Services Department and the Federal Aviation Administration.

The Northeast Gateway Corridor District (“IH-1”) provides site development standards for commercial properties up to 1,000 feet of Interstate 35 between Walzem Road and the northern City Limits. The standards primarily address building placement, landscaping, building materials, façade design and signage to promote a coordinated development scheme for the Corridor. A zoning review is performed by the Zoning Section of the

Development Services Department.

Traffic Impact: A Traffic Impact Analysis (TIA) report is not required. The traffic generated by the proposed development does not exceed the threshold requirements.

Parking Information: Parking requirements are determined by use: Dwelling- 2 Family- Minimum vehicle spaces: 1 per unit. Maximum vehicle spaces: 2 per unit.

ISSUE:

None

ALTERNATIVES:

Denial of the requested zoning change would result in the subject property retaining the present zoning district designation. The “R-6” Residential Single-Family District allows single-family dwellings (detached) with a minimum lot size of 6,000 square feet and a minimum lot width of 50 feet. Other permitted uses are foster family home and public/private schools.

FISCAL IMPACT:

None.

PROXIMITY TO REGIONAL CENTER/PREMIUM TRANSIT CORRIDOR:

The subject property is within the Northeast Gateway Corridor.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (10-0) recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is currently not located within any adopted land use plan and has no land use classification. Therefore a finding of consistency is not required. However, staff finds the requested zoning change is consistent with the existing development pattern of multi-family uses.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change because the request is consistent with the base zoning districts of the surrounding properties.

3. Suitability as Presently Zoned:

The current “R-6” base zoning district is appropriate for the surrounding area. The subject property is bounded by residential uses.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare. The request for zoning would provide an appropriate use for this underused, vacant lot.

5. Public Policy:

The request does not appear to conflict with any public policy objective. An urban farm is best when developed on a vacant lot situated in an established neighborhood.

6. Size of Tract:

The subject property measures 3.147 acres which should reasonably accommodate the uses permitted in the “R-6” Residential Single Family District.

7. Other Factors:

The purpose of the Specific Use Authorization is to provide for certain uses which, because of their unique characteristics or potential impacts on adjacent land uses, are not generally permitted in certain zoning districts as a matter of right, but may, under the right set of circumstances and conditions be acceptable in certain specific locations.
