The "AHOD" does not restrict permitted uses, but can require additional review of construction plans by both the Development Services Department and the Federal Aviation Administration.

The Beacon Hill Neighborhood Conservation District (NCD-5) is an overlay zoning district that contains design guidelines for rehabilitation of existing residential and commercial development. Property owners, together with the Department of Planning and Community Development staff, develop the design guidelines.

These guidelines can address building materials, height, size, massing, signage, sidewalk location, etc. A zoning review is performed by the Zoning Section of the Development Services Department.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (9-0) recommend Approval, pending Plan Amendment.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located in the Midtown Neighborhoods Plan and is currently designated as “Medium Density Residential.” The applicant is seeking a plan amendment to change the future land use to “Mixed Use” to allow for “C-2” base zoning district. Staff and Planning Commission recommend approval.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change because the request is consistent with the commercial uses that exist along the corridor.

3. Suitability as Presently Zoned:

The current “R-6” base zoning district is inappropriate as the existing structure is designed for commercial uses.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The rezoning request does not appear to conflict with the land use goals and strategies of the Midtown Neighborhoods Plan to encourage business to develop along Blanco Road and to bring vitality to the neighborhood’s commercial centers.

6. Size of Tract:

The subject property measures 0.1722 acres which should reasonably accommodate the uses permitted in the “C-2” base zoning district.

7. Other Factors:

None.
