**ISSUE:**

This ordinance will ratify all expenditures exceeding the \$50,000 threshold for costs incurred to provide temporary emergency services at various evacuee shelters. Services were rendered utilizing Lease Agreements and Certificates of Exemption, for procurements to preserve or protect the public health or safety of the City's residents and hurricane evacuees.

**ALTERNATIVES:**

Should the agreements with the Port Authority of San Antonio, LCG Stout Drive, LLC, LIT Industrial Texas Limited Partnership, and Maxim Staffing Solutions; the amendment with Angel Staffing; the Certification of Exemption with Trane Building Services; and the Mutual Aid Agreements with County of Aransas, City of Aransas, and City of Houston not be approved, the City will not be able to pay the necessary invoices incurred during the Hurricane Harvey emergency response. In turn, without City Council approval, the City will not be able to receive reimbursement from the State for the associated costs. Additionally, without City Council approval, City will not be able to rely on these contracts and mutual aid agreements for emergency response in the event of any future emergencies or disasters.

**FISCAL IMPACT:**

This ordinance ratifies agreements and expenditures for emergency procurement to provide sheltering to hurricane evacuees during Hurricane Harvey response. Expenses related to these agreements initially will be funded through the operating funds; however invoices will be sent to the state for reimbursement. Once received, the reimbursement will fund expenses and there will be no impact on the operational funds.

**RECOMMENDATION:**

Staff recommends approval of an Ordinance accepting the local disaster declaration and ratifying agreements

for Emergency expenditures incurred during Hurricane Harvey to provide assistance to various Texas governmental entities including the emergency sheltering of evacuees.
