**ISSUE:**

**Comprehensive Plan**

**Comprehensive Plan Component:** Northeast Inner Loop Neighborhood Plan

**Plan Adoption Date:** March 22, 2001

**Update History:** August 2008

**Plan Goals:** The plan does not contain any listed goals. It does speak of Land Use Concepts, and one is that “Medium Density Mixed Use areas include the less intensive commercial uses interspersed or blended with residential and office uses.”

**Comprehensive Land Use Categories**

**Land Use Category:** “Neighborhood Commercial”

**Description of Land Use Category:** Neighborhood Commercial includes low-intensity, small scale retail, office or service uses serving the neighborhood area with low-impact convenience, retail, or service functions. Example of uses include convenience store, small insurance or doctor’s office, bakery, small restaurant, bookstore, antique shop, copy service, veterinarian’s office, or small, neighborhood sized grocery stores.

Locations for Neighborhood Commercial include the intersections of residential streets, within established commercial areas and/or collectors and within walking distance of residential areas. Neighborhood Commercial can serve as an appropriate buffer between low, medium, and high density residential uses, or between an

arterial and low density residential. Parking is encouraged in the rear of the buildings, and should be appropriately buffered from adjacent residential uses through landscaping, screening and lighting controls. Monument signage is strongly recommended, as are pedestrian amenities.

**Permitted Zoning Districts:** NC, C-1, O-1

**Land Use Category:** “Medium Density Mixed Use”

**Description of Land Use Category:** Mixed Use allows for a concentrated, well structured, and integrated blend of higher density residential, retail, professional services, office, entertainment, and other land uses. The integration of uses should occur within structures, as well as across the site, with commercial uses situated primarily along the higher order roadways, and on the ground floor level of individual structures. Shared parking located near the rear of the facilities, accessory dwelling and live/work units are encouraged. Mixed Use is preferred along arterials, preferably in a nodal pattern with proximity to a major transit stop or node. When placed along a higher order roadway, the mixed use development should decrease in density with distance from the roadway. Building and architectural design of a mixed use development should stress quality, including open space, landscaping, and a safe, attractive, and pedestrian and bicycle friendly environment.

**Permitted Zoning Districts:** RM-4, RM-5, RM-6, MF-25, NC, C-1, C-2, C-2P, IDZ, TOD, MXD, UD, O-1, FBZD

**RECOMMENDATION:**

Staff Analysis & Recommendation: Staff recommends Approval.

The requested Plan Amendment is to allow the construction of a commercial use on the subject property. For this reason, the applicant needs a land use that is slightly higher than “Neighborhood Commercial”, but that would allow for a mix of uses. The subject property is located near the intersection of Nacogdoches Road and Broadway Street, which are both Secondary Arterials. The Northeast Inner Loop Neighborhood Plan specifically addresses the way in which the requested “Medium Density Mixed Use” land use designation can be used. The Plan states it would be appropriate along the Broadway corridor, which is relevant to the subject property. The description of the land use classification also states that “Mixed Density Mixed Use” is preferred along arterials. The subject property is located between different levels of a Commercial land use designation and “Low Density Residential.” The requested “Mixed Density Mixed Use” will serve as a buffer between the commercial and residential land use designations.

**ALTERNATIVES:**

1. Recommend Denial of the proposed amendment to the Northeast Inner Loop Neighborhood Plan, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date.
