RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (10-0) recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the Highlands Community Plan and is currently designated as “Public/Institutional” in the land use component of the plan. The requested “C-2” base zoning district with use as a church is consistent with the adopted land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff has not found evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the development pattern of the surrounding area.

3. Suitability as Presently Zoned:

The existing “R-4” base zoning district is appropriate for the surrounding area. There is single-family residential to the west of the property. The requested “C-2” is also appropriate for the surrounding area given that there is commercial zoning to the east of the subject property.

4. Health, Safety and Welfare:

Staff has not found any indication of likely adverse effects on the public health, safety, or welfare. The

requested zoning is would require a Type B buffer yard of fifteen (15) feet between residential zoning and development. In this case, the church next door is requesting the change to create a consistent zoning throughout their property and zone the property appropriately for a parking lot.

5. Public Policy:

The request does not appear to conflict with any public policy objective.

6. Size of Tract:

The 0.3664 acre site is of sufficient size to accommodate the proposed development.

7. Other Factors:

This request to rezone is to coordinate the zoning with the adjacent church for continued utilization as a church parking area.
