A denial of the request will result in the subject property retaining the current base zoning district. Single-family dwelling (detached) with a minimum lot size of 4,000 square feet and a minimum lot width of 35 feet, foster family home, public and private schools would be allowed in the “R-4” district.

FISCAL IMPACT:

None.

The subject property is within the Midtown Regional Center and .21 miles from the San Pedro Metro Premium Plus Route.

Staff Analysis and Recommendation: Staff and Zoning Commission (9-0) recommend Approval, pending Plan Amendment.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the Five Points Neighborhood Plan, and is currently designated as “Low Density Residential” in the future land use component of the plan. The requested “R-4” Residential Single-Family base zoning district is not consistent with the future land use designation. The applicant has requested a Plan Amendment to change the future land use from “Low Density Residential” to “Medium Density Residential”. Staff and Planning Commission recommend Approval.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The property owner currently has a triplex on the property and is in the process of building a second structure in

the rear of the property. The area currently consists of a mix of duplexes, fourplexes and apartments. The change to “RM-4” would not drastically alter the character of the immediate area

3. Suitability as Presently Zoned:

The current “R-4” base zoning district is appropriate for the subject property’s location; however, the proposed “RM-4” use is consistent with the established development pattern of the neighborhood as it is made up of a mixture of residential densities.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The rezoning request does not appear to conflict with any public policy objective.

6. Size of Tract:

The subject property totals 0.2256 acres in size, which reasonably accommodates the uses permitted in “RM-4” Residential Mixed District.

7. Other Factors:

None.
