Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the Heritage South Sector Plan and is currently designated as “Low-Density Residential” in the future land use component of the plan. The requested “MH” base zoning district is consistent with the future land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed rezoning to “MH” base zoning is consistent with the neighboring properties.

3. Suitability as Presently Zoned:

The current “R-6” Residential Single-Family District is an appropriate zoning for the property and surrounding area. The properties in the area are a mix of single-family residences as well as manufactured homes.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare. The proposed rezoning is requested in order to place a manufactured home on the vacant lot.

5. Public Policy:

The proposed rezoning does not appear to conflict with the following goals, principles, and objectives of the United Southwest Communities Plan. The neighborhood has developed into a mix of manufactured homes and standard single-family homes.

United Southwest Communities Plan Relevant Goals and Objectives:

- Goal 2 - Housing Encourage the development of new housing that is compatible with the community.
- Objective 2.1: Develop New Housing - Encourage single family development.

6. Size of Tract:
