Denial of the requested zoning change would result in the subject property retaining the present zoning district designations of “R-6”. “R-6” allows for uses such as single-family dwelling (detached), foster family home, public and private schools.

**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Denial.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The subject property is located within the North Sector Plan and is currently designated as “Suburban Tier” in the future land use component of the plan. The requested “R-6 CD” base zoning is compatible with the future land use designation. However, the use of an assisted living facility is not recommended in the middle of a residential subdivision.

**2. Adverse Impacts on Neighboring Lands:**

Staff finds evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed rezoning to “R-6 CD” Residential Single-Family District to Allow for Assisted Living Facility with 10 residents is too intense within developed single-family residences.

**3. Suitability as Presently Zoned:**

The current “R-6” Residential Single-Family District is an appropriate zoning for the property and surrounding area. The adjacent properties are single-family residences that carry the “R-6” base zoning districts.

**4. Health, Safety and Welfare:**

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

**5. Public Policy:**

The proposed rezoning does not appear to conflict with the following goals, principles, and objectives of the North Sector Plan.

North Sector Plan Relevant Goals and Objectives:

- Goal HOU-1: Continued support for development of diverse housing stock using infill housing

development between Loop 1604 and Loop 410.

**6. Size of Tract:**

The subject property is 0.1708 acres, which would adequately support a development of single-family residences.

**7. Other Factors:**

None.
