**ISSUE:**

None.

**ALTERNATIVES:**

Denial of the requested zoning change would result in the subject property retaining the present zoning district designation. Single-family residential consists of dwellings (detached) with a minimum lot size of 4,000 square feet and a minimum lot width of 35 feet, foster family home, public and private schools.

**FISCAL IMPACT:**

None.

**PROXIMITY TO REGIONAL CENTER/PREMIUM TRANSIT CORRIDOR:**

The subject property is not located within a Regional Center or a Premium Transit Corridor.

**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff and Zoning Commission (9-0) recommend Approval.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The subject property is located within the Stinson Airport Vicinity Plan and is currently designated as “Low Density Residential” in the land use component of the plan. The requested “R-4” base zoning district is consistent with the adopted land use designation.

**2. Adverse Impacts on Neighboring Lands:**

Staff has not found evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the development pattern of the surrounding area. There are existing structures on the property that contain four (4) residential units, and there seem to be properties along Petaluma Boulevard that consist of multiple units.

**3. Suitability as Presently Zoned:**

The existing “R-4” base zoning district is appropriate for the surrounding area. There are is “R-4” zoning surrounding the property.

**4. Health, Safety and Welfare:**

Staff has not found any indication of likely adverse effects on the public health, safety, or welfare. The subject property already has four existing units, and the request is to bring the use into compliance with zoning.

**5. Public Policy:**

The request does not appear to conflict with nay public policy objective.

**6. Size of Tract:**

The one 1.00 acre site is of sufficient size to accommodate the proposed development. The lot is deep and already has the four (4) residential units on the property.

**7. Other Factors:**

The conditional use zoning procedure is designed to provide for a land use that is not permitted by the established zoning district, but due to individual site considerations or unique development requirements would be compatible with adjacent land uses under given conditions.
