The “I-1” General Industrial district accommodates areas of heavy and concentrated fabrication and manufacturing and industrial uses which are suitable based on the character of adjacent development. FISCAL IMPACT:
None.

Staff Analysis and Recommendation: Staff and Zoning Commission (9-0) recommend Approval, with Conditions.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the South Central San Antonio Community Plan, and is currently designated as “Mixed Use” in the future land use component of the Plan. The requested “C-1” Light Commercial district and “C-2” Commercial base zoning districts are consistent with the future land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The property is currently a Motor Vehicle Full Service shop and is not consistent with the use of the property or the surrounding zoning. The rezoning will allow the property owner to continue operating under a consistent zoning district. Additionally, the Conditional Use allows conditions to be added to the use of the property for further regulation.

3. Suitability as Presently Zoned:

The current “I-1” base zoning district is not appropriate for the subject property’s location due to its intensity and close proximity to the neighborhood.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The rezoning request does not appear to conflict with any public policy objective.

6. Size of Tract:

The subject property totals 0.4857 acres in size, which reasonably accommodates the uses permitted in the “C-1” Light Commercial and “C-2” Commercial District.

7. Other Factors:

The Conditional Use zoning procedure is designed to provide for a land use that is not permitted by the established zoning district, but due to individual site considerations or unique development requirements would be compatible with adjacent land uses under given conditions.

The applicant amended the request at the Zoning Commission meeting of February 20, 2018 to rezone to both “C-1” and “C-2 CD.”

Should the rezoning be approved, staff recommends the following conditions:

1. No temporary signs, no pennant flags, no feather flags and no streamers or strings.
2. No outdoor amplification speakers permitted.
3. Lighting shall be directed onto the property only.
