RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the West Sector Plan and is currently designated as “General Urban Tier”. The request for “MF-33” base zoning district is consistent with the adopted future land use plan.

2. Adverse Impacts on Neighboring Lands:

Staff does not find a likely adverse impact on neighboring lands in relation to this zoning change because the request is consistent with the existing land use to the west of the subject property.

3. Suitability as Presently Zoned:

The current “C-2” base zoning district is appropriate for the subject property’s location. The applicant’s request for “MF-33” base zoning is also appropriate for the subject property’s location as it will offer additional additional housing options to the area.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The rezoning request does not appear to conflict with any public policy objective as the request supports the

West/Southwest Sector Plan goal of providing a range of housing types and prices to accommodate all residents within the Sector and within the same neighborhood.

6. Size of Tract:

The subject property totals 18.21 acres in size, which should reasonably accommodate the uses permitted in “MF-33” Multi-Family District.

7. Other Factors:

This is a request for zoning for a voluntary annexation by the applicant for a portion of the property.
