SUBJECT:

2018 Quarterly Crime Update

SUMMARY:

In response to an increase in violent crime in cities across the nation in 2016, the SAPD implemented the Violent Crime Task Force (VCTF) in January 2017. The VCTF is a proactive, intelligence-driven initiative comprised of local, state and Federal law enforcement agencies that strategically focuses on identifying and apprehending known criminals who are responsible for a significant share of the illegal activity that ultimately culminates in violent crimes that impact quality of life. Due in large measure to the efforts of the VCTF, San Antonio experienced a significant decrease in violent crime last year. Through the first quarter of 2018, San Antonio continues to witness a dramatic decrease in violent crime as a result of the continued efforts of the VCTF and the implementation of the FY 2018 budget initiatives designed to enhance community engagement.

BACKGROUND INFORMATION:

UCR Crime Data

The Uniform Crime Report (UCR), which is published by the Federal Bureau of Investigation annually, is comprised of monthly violent crime and property crime statistics reported by over 18,000 law enforcement agencies across the nation, including the San Antonio Police Department. The table below offers a comparative crime statistics for 2017 and 2018, through April 16:

Bi-Monthly UCR Status Report				
Violent Crimes	Jan - Apr 16 2017	Jan - Apr 16, 2018	# Change Inc/Dec	Percent Inc/Dec

Overall, Part I UCR crime has decreased 25% through the first quarter of 2018 compared to last year. The significant decrease can be attributed to the VCTF as well as the Department's continued efforts to strengthen its relationship with neighborhoods through the introduction of a Community Engagement Program and the expansion of the SAFFE Program.

In 2017, the VCTF was responsible for a total of 5,687 arrests, 2,339 felony warrants executed, 883 firearms recovered, 594 gang members arrested and the seizure of over 505,000 grams of drugs and over \$1.2 million. The table below provides a comparison of the results achieved by the VCTF this year through April 14:

Community Engagement

Community Engagement Program

The community engagement program is designed to proactively establish contact with individuals in high crime areas in an effort to facilitate support services and to prevent criminal activity. The program works closely with the Department's Victim Advocacy Unit and other programs, such as SAFFE, to provide valuable services and coordinate community projects. In addition, the community engagement program coordinates its efforts to compliment the activities of the Violent Crimes Task Force to ensure its services are offered in areas with significant criminal activity. To date, the program has concentrated its focus within the East, West and Central service areas, respectively. As of March 30, the results achieved are as follows:
