<u>Comprehensive Plan</u> Comprehensive Plan Component: Five Points Neighborhood Plan Plan Adoption Date: February 3, 2000 Plan Goals:

- Goal 2: Promote responsible economic development
 - Objective 2.2: Work with developers so that new and renovated buildings do not overwhelm the architectural character of the neighborhood. When possible, new buildings should be built in context with the historic nature of the community.
- Goal 3: Preserve the existing housing stock
 - Objective 3.1: Utilize municipal zoning tools to preserve the architectural character of the historical housing stock

<u>Comprehensive Land Use Categories</u> Land Use Category: "Low Density Residential" Description of Land Use Category:

Low Density Residential land use includes single-family homes on individual lots. A limited number of duplexes and granny flats or garage apartments may also be permitted. Small green spaces such as playgrounds or community gardens are also permitted and encouraged within this category.

One of the neighborhood's highest priorities is to conserve the existing housing stock, and they recognize and appreciate the varying residential densities. The neighborhood would like to see the structures built as multi-family housing (duplex, triplex, quadplex) continue in this use even if located within a low density residential area. However, the neighborhood prefers no further conversion of single-family housing into multi-family residential uses.

The Five Points Neighborhood has a unique history showcased through the housing stock. The neighborhood encourages property owners to preserve the original housing stock when possible. When residential units are newly constructed, the neighborhood urges the property owner to match the architectural character of current low density residential structures.

Corresponding Zoning Districts: R-3, R-4, R-5 and R-6

<u>Comprehensive Land Use Categories</u> Land Use Category: "Low Density Mixed Use" Description of Land Use Category:

Low Density Mixed Use includes neighborhood commercial, office, small lodging, and medium density residential uses mixed within buildings and along the blockface. Shared parking among adjacent uses is encouraged.

Walkability is an important factor. Buildings should be designed to encourage walkable spaces through: locating parking in the rear of the building and encouraging on-street parking; creating architecturally interesting buildings at the street level; creating and maintaining well landscaped green spaces along the street; building and/or improving adjacent sidewalks; providing bicycle facilities; and improving lighting along the pedestrian path.

Corresponding Zoning Districts: RM-4, RM-5, RM-6, MF-18, MF-25, NC, C-2P, IDZ, TOD, MXD, UD, FBZD

Proximity to Regional Center/Premium Transit Corridor

The property is located within the Midtown Regional Center and half a mile of Premium Transit Corridor

RECOMMENDATION:

Staff Analysis & Recommendation: Staff recommends Approval.

The proposed land use amendment from "Low Density Residential" to "Low Density Mixed Use" is requested in order to rezone the property to "C-2P" Commercial Pedestrian District. This is consistent with the Five Points Neighborhood Plan's goal to utilize municipal zoning tools to preserve the architectural character of the historical housing stock. The M.K. Davis Restaurant is a popular restaurant that experiences heavy traffic throughout the day. Due to the shortage of parking, customers resort to parking on the surrounding residential streets. The proposed Plan Amendment to "Low Density Mixed Use" will mitigate the non-residential parking around the local area into a new designated parking lot specifically for M.K. Davis.

ALTERNATIVES:

- 1. Recommend Denial of the proposed amendment to the Five Points Neighborhood Plan, as presented above.
- 2. Make an alternate recommendation.
- 3. Continue to a future date.
