**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Denial.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The subject property is located within the Kelly/South San Pueblo Community Plan and is currently designated as “Low Density Residential” in the future land use component of the plan. The requested “R-5” base zoning is compatible with the future land use designation. During the SA Tomorrow planning process, this area should be reviewed for compatibility with a nearby military installation.

**2. Adverse Impacts on Neighboring Lands:**

Staff has found evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use will diminish the appropriate buffer between the residential uses to the east and the higher intensity uses to the west.

**3. Suitability as Presently Zoned:**

The current “C-1” Light Commercial District is an appropriate zoning for the property and surrounding area.

**4. Health, Safety and Welfare:**

Staff has found indication of likely adverse effects on the public health, safety, or welfare. The subject property falls within the 70-74 db Noise decibel zone. The Air Force Air Installation Compactible Use Zone Study

(AICUZ) for Kelly Field does not recommend Residential units within the 70-74db Noise decibel Zone.

**5. Public Policy:**

The proposed rezoning does not appear to conflict with the goals, principles, and objectives of the Kelly/South San Pueblo Community Plan.

**6. Size of Tract:**

The subject property is 0.14 acres, which would adequately support a single-family development.

**7. Other Factors:**

The subject property is located within the Lackland Notification Area. In accordance with the signed Memorandum of Understanding between Joint Base San Antonio (JBSA) and the City of San Antonio, the Military was notified of the request and do not concur. Should the rezoning request be approved, it is encouraged that the construction include sound attenuating measures.
