Criteria for Review

According to Section 35-482(h) of the UDC, in order for a special exception to be granted, the Board of Adjustment must find that the request meets each of the five following conditions:

A. The special exception will be in harmony with the spirit and purpose of the chapter.

The UDC states the Board of Adjustment can grant a special exception for a fence height modification up to eight feet. The additional fence height is intended to provide safety and security of the applicant's property. If granted, this request would be in harmony with the spirit and purpose of the ordinance.

B. The public welfare and convenience will be substantially served.

In this case, these criteria are represented by maximum fence heights to protect residential property owners while still promoting a sense of community. A 5'5" tall solid screen fence was built along the front property line to provide additional security for the property. This is not contrary to the public interest.

C. The neighboring property will not be substantially injured by such proposed use.

The fence will create enhanced security for the subject property and is highly unlikely to injure adjacent properties. Further, the fencing does not violate Clear Vision standards.

D. The special exception will not alter the essential character of the district and location in which the property for which the special exception is sought.

The fencing does not detract from the character of the neighborhood. The fencing is in line with other preexisting fencing material and height within the immediate vicinity.

E. The special exception will not weaken the general purpose of the district or the regulations herein established for the specific district.

The property is located within the “MF-33 AHOD” Multi-Family Airport Hazard Overlay District and permits the current use. The requested special exception will not weaken the general purpose of the district.

Alternative to Applicant’s Request

Without the requested special exceptions, the 5’5” tall privacy fence in the front of the property cannot remain as built.

Staff Recommendation

Staff recommends **APPROVAL** of the requested special exception for a 5’5” tall privacy fence along the front yard in **A-18-086**, based on the following findings of fact:

1. The request does not alter the essential character of the district, and;
2. The request does not interfere with Clear Vision standards.
