The "MC-3" Austin Highway/Harry Wurzbach Metropolitan Corridor provides site and building design standards for properties located along the two corridors. RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (10-0) recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the Northeast Inner Loop Neighborhood Plan and is currently designated as “Community Commercial” in the future land use component of the plan. The requested “C-2” base zoning is compatible with the future land use designation and is consistent with the surrounding properties.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request.

3. Suitability as Presently Zoned:

The current “C-2” Commercial District is an appropriate zoning for the property and surrounding area. The conditional use allows the single use of Light Auto and Truck Repair and all other “C-2” uses, but does not allow further intense commercial uses other than that prescribed by the “CD”.

4. Health, Safety and Welfare:

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The proposed rezoning does not appear to conflict with the following goals, principles, and objectives of the Northeast Inner Loop Neighborhood Plan.

Northeast Inner Loop Neighborhood Plan Relevant Goals and Objectives:

- Goal 2: Economic and Physical Redevelopment of Austin Highway.
 - Objective 2.3 Business Development Attract new, neighborhood-friendly businesses and infill development that will meet the resident's daily needs and bring new vitality to the neighborhoods' commercial centers.

6. Size of Tract:

The subject property is 1.463, which would adequately support a commercial development.

7. Other Factors:

The purpose of the Conditional Use is to provide for certain uses which, because of their unique characteristics or potential impacts on adjacent land uses, are not generally permitted in certain zoning districts as a matter of right, but which may under the right set of circumstances and conditions be acceptable in certain specific locations.

The applicant is seeking a conditional use to allow for auto and light truck repair.
