RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (9-0) recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the Nogalitos/South Zarzamora Community Plan and is currently designated as “Low Density Residential” in the future land use component of the plan. The requested “R-5” base zoning district is consistent with the future land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request.

3. Suitability as Presently Zoned:

The current “R-5” Residential Single-Family district is an appropriate zoning for the property and surrounding area.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The proposed rezoning does not appear to conflict with the goals, objectives, and strategies of the Nogalitos/South Zarzamora Community Plan. The property is located on Division Avenue which is a secondary arterial and can accommodate an increased residential density. The plan encourages a variety of housing types for all ages and economic groups. The proposed duplex and improvements to the property will also meet the objective of preserving housing stock and improving the physical appearance.

- Objective 1.1: Home Improvement and Maintenance - Encourage investment in housing rehabilitation and maintenance
- Objective 1.2: Diversity of Housing - Provide a variety of housing types that sustain all ages and economic groups
- Objective 2.1: Neighborhood Character and Appearance - Protect and preserve the character of the neighborhoods and commercial corridors while improving their physical appearance

6. Size of Tract:

The subject property is 0.1435 of an acre, which could accommodate the proposed duplex.

7. Other Factors:

The purpose of the Conditional Use is to provide for certain uses which, because of their unique characteristics or potential impacts on adjacent land uses, are not generally permitted in certain zoning districts as a matter of right, but which may under the right set of circumstances and conditions be acceptable in certain specific locations.
