ISSUE:

These contracts will provide fourteen replacement asphalt paving equipment items to meet the needs of the Transportation and Capital Improvements Department. The replacement of these units is consistent with the City's Equipment Renewal and Replacement Fund (ERRF) program.

The life expectancy for this equipment is 120 months.

The Small Business Economic Development Advocacy (SBEDA) Ordinance requirements were waived due to the lack of small, minority, and/or women businesses available to provide these goods and services.

The Veteran-Owned Business Program does not apply to good/supplies contracts, so no preference was applied to this contract.

ALTERNATIVES:

The current asphalt paving equipment scheduled for replacement have met their age and/or mileage requirement cycles and no longer economically feasible to repair. Should the replacement equipment not be purchased, the alternative is to continue to use the existing equipment but incur increased maintenance costs

and potential delays in the delivery of paving projects and services for the City of San Antonio.
