ALTERNATIVES:

Denial of the requested zoning change would result in the subject property retaining the present zoning district designations of “C-3R” is intended to provide for more intensive commercial uses than those located within the NC, C-1 or C-2 zoning districts. C-3 uses are typically characterized as regional shopping centers, power centers, and/or assembly of similar uses into a single complex. There are no building size limitations, and building height is limited to 35 feet. Examples of permitted uses: bar/tavern & nightclub, amusement/theme parks, dance hall, indoor movie theater, auto repair, auto sales, auto glass sales (installation permitted), auto muffler (sales and installation only), hotel, bookbinder, dry cleaning or laundry plant, indoor flea market, home improvement center, body piercing/massage/tattoo parlor. No outdoor storage is permitted. Outdoor operations and display shall be permitted in areas which are screened as provided in 35-510 of the Unified Development Code. RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (11-0) recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is not located within an adopted Neighborhood, Community, Perimeter, or Sector Plan. Therefore, a finding of consistency is not required.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request.

3. Suitability as Presently Zoned:

The current “C-3R” base zoning district is not appropriate for the surrounding area. Dinn Drive has a mix of commercial, industrial and residential base zoning which is atypical for a neighborhood.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The rezoning request does not appear to conflict with any public policy objective. The property is not located within an adopted Neighborhood, Community, Perimeter, or Sector Plan. The requested rezoning is a downzoning from “C-3R” which could permit heavy commercial uses adjacent to residential. The requested “MF-18” is a higher density than the surrounding properties, however it is an appropriate base zoning due to its location on the periphery of the neighborhood.

6. Size of Tract:

The subject property is 0.28 of an acre, which could accommodate the proposed four residential units.

7. Other Factors:

The subject property is located within the Fort Sam Houston Awareness Zone/Military Influence Area. In accordance with the signed Memorandum of Understanding, JB SA was notified of the proposed request.
