Denial of the requested zoning change would result in the subject property retaining the present zoning district designations of “R-5 CD” which permits single-family dwellings (detached) with a minimum lot size of 5,000 square feet and a minimum lot width of 45 feet, foster family home, public and private schools. The Conditional Use also permits Two-Family Dwellings on the subject property.

**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Approval.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The subject property is located within the San Antonio International Airport Vicinity Land Use Plan and is currently designated as “Low Density Residential” in the future land use component of the plan. The requested “R-3” base zoning district is consistent with the future land use designation.

**2. Adverse Impacts on Neighboring Lands:**

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. Although most of the surrounding properties are developed as single-family residences, there is wide range of individual lot sizes. The subject property consists of two lots that are each more than 7,000 square feet in size. Additionally, there are multi-family uses in the area.

**3. Suitability as Presently Zoned:**

The current “R-5 CD” is an appropriate base zoning for the property. The request “R-3” is also an appropriate

base zoning for the property.

**4. Health, Safety and Welfare:**

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

**5. Public Policy:**

The proposed rezoning is consistent with the goals and objectives of the San Antonio International Airport Vicinity Land Use Plan. The property was rezoned in 2014 from “R-5” to the current “R-5 CD” with Conditional Use for Two-Family Dwellings. The requested “R-3” base zoning will essentially permit the same density but will permit the houses to be built as single-family residences, instead of duplexes.

**6. Size of Tract:**

The subject properties are 0.3581 of an acre, which could accommodate multiple single-family residences.

**7. Other Factors:**

The subject property consists of two platted lots, one of which is developed as a single-family home (measuring approximately 1,140 square feet in size and built in 1958). The remaining lot is currently undeveloped.
