SUBJECT: Pre-Solicitation Briefing for Records Management System for SAPD

DATE: January 29, 2019

The San Antonio Police Department (SAPD) will present a pre-solicitation briefing for the procurement and implementation of a records management system for SAPD. This briefing will allow an opportunity for input and direction from Committee members.

The pre-solicitation briefing will cover estimated contract value, projected timeline, high profile designation, scope of the project, terms of the contract, proposed scoring criteria, evaluation committee members, project

considerations, local preference program applicability, veteran owned small business preference program applicability, and SBEDA program requirements.

The scope of this solicitation will allow for the purchase and implementation of a configurable records management system that will demonstrate National Incident Based Reporting System (NIBRS) functionality. It is anticipated that the Federal Bureau of Investigation Uniform Crime Reporting (UCR) Program will replace the current reporting standard, Summary Reporting System (SRS) with NIBRS by January 2021. This new standard will improve the quality of crime reporting data and analytics.

SAPD expects to release a Request for Proposal (RFP) in February 2019.
