**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff and Zoning Commission (9-0) recommend Approval.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The subject property is located within the Eastern Triangle Community Plan and is currently designated as “Low Density Residential” in the future land use component of the plan. The requested “R-5” base zoning is consistent with the future land use designation.

**2. Adverse Impacts on Neighboring Lands:**

Staff has not found evidence of likely adverse impacts on neighboring lands in relation to this zoning change request.

**3. Suitability as Presently Zoned:**

The current “R-5” Residential Single-Family District is an appropriate zoning for the property and surrounding area. The request maintains the base zoning district and adds a Specific Use Authorization for a Wireless Communication System.

**4. Health, Safety and Welfare:**

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

**5. Public Policy:**

The proposed rezoning does not appear to conflict with the following goals, principles, and objectives of the Eastern Triangle Community Plan.

Eastern Triangle Community Plan Relevant Goals and Objectives:

- Overall goal: A community that is a safe and clean place in which to live in free of crime, stray animals, and trash
- Goal 5: Keep commercial and residential properties well maintained in the Eastern Triangle.

**6. Size of Tract:**

The subject property is 0.052 acres, which would adequately support a wireless communication system.

**7. Other Factors:**

The purpose of the Specific Use Authorization is to provide for certain uses which, because of their unique characteristics or potential impacts on adjacent land uses, are not generally permitted in certain zoning districts as a matter of right, but may, under the right set of circumstances and conditions be acceptable in certain specific locations.

A rezoning was approved for a Wireless Communication System on October 18, 2018 by Ordinance 2018-10-18-0842. The applicant has to rezone again because the location of the proposed tower is moving to the west by approximately 10 feet, which is considered a major amendment to the site plan.
