The subject property is located within the Downtown Regional Center.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (8-1) recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the Lone Star Community Plan, and is currently designated as “Low Density Mixed Use” in the future land use component of the plan. The requested “IDZ-1” base zoning district is consistent with the future land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed development is for mixed use of commercial offices and café/restaurant which is an appropriate use for the area.

3. Suitability as Presently Zoned:

The current “IDZ” Infill Development Zone is an appropriate zoning for the property and surrounding area. The proposed “IDZ-1” maintains the base zoning.

4. Health, Safety and Welfare:

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The rezoning request does not appear to conflict with the land use goals and strategies of the Lone Star Community Plan.

Lone Star Community Plan Goals:

LU-1.1: Eliminate existing zoning that allows industrial uses that do not meet the performance criteria in Table LU-1.1

LU-1.4: Encourage efforts to provide buffer areas and landscaping or neighborhood/ community commercial uses between Business Park and adjoining uses. Encourage the use of buffer areas for community events as business needs allow.

6. Size of Tract:

The subject property is 0.41 acres, which would adequately support retail, commercial and office uses.

7. Other Factors:

Infill Development Zone (IDZ) provides flexible standards for developments. IDZ is to encourage and facilitate development on vacant, bypassed lands, or the redevelopment of underutilized buildings or structures, within existing built-up areas. IDZ may be approved as either a base zoning district or an overlay zoning district. Standards required in an IDZ district shall apply to either IDZ base zoning or the IDZ overlay district except where otherwise specifically stated. Typically IDZ gives flexibility to parking requirements, lots sizes, and setbacks.

- The applicant's request meets the Master Plan's Policy for Growth Management - Policy 1g, because it makes physical improvements on an inner city property encouraging redevelopment and infill development.
- The applicant's request the Master Plan's Policy for Neighborhoods - Policy 1a, because it rezones vacant or underutilized property in and around neighborhoods to encourage redevelopment that is compatible in use and intensity with the existing neighborhood.
- The applicant's request the Master Plan's Policy for Urban Design - Policy 1d, because it develops criteria and procedures for infill development which will enhance the character of neighborhoods.
- The applicant's request the Master Plan's Policy for Urban Design - Policy 4b, because it incentivizes property to encourage development in underutilized urban areas.
